Lab 06. Cron

阿怎麼還有作業

Lab Requirements

- Use crontab to add some jobs, send http GET request at specific time.(+- 15s)
- URL: **http://172.26.4.252/lab6**
- at 3:07:00 -> /lab6/task1   (this is file name store in your VM)
- at 4:58:00 -> /lab6/task2
- at 6:46:00 -> /lab6/task3
- at 22:15:00 -> /lab6/task4
- Save the response to each file
- **Timezone: GMT+8**
- Everyday has the same content, so don't worry about the date

Lab Requirements

If you send request at right time, server will response a secret flag.

TA will check those files.

Judge Timetable

- 4/5 22:00
- 4/6 22:00
- 4/7 22:00
- 4/8 13:00
